## ARGONNE NATIONAL LABORATORY

November 13, 1973

Dr. James L. Liverman, Director  
Division of Biomedical and Environmental  
Research  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Dear Jim:

I am enclosing a detailed summary of the activities in the Center for Human Radiobiology relating to plutonium studies as a follow-up to our telephone conversation on October 31. Following that conversation, I arranged for Bob Rowland to get information to you immediately as you requested, and I hope that that information was sufficient for your needs at the time. As you no doubt discovered, your staff has been kept informed about this matter.

If we can provide any further information, please let us know.

Sincerely yours,

*Bob*
